

ADDENDUM 1

2017-021

SPECIAL CONSTRUCTION PROJECT  
FIBER CONNECTION BETWEEN  
MULTIPLE SCHOOL BUILDINGS

April 2017

## 2017-021 Fiber Connection between Multiple School Buildings

### Questions/Clarifications

1. Does the town want the fiber network build in the municipal gain space or do they want the network build in the communications space on the pole line?

Note: No licensing is required for the municipal space construction but use is limited to solely the town's use. Municipal gain when possible.

2. Can the town provide the location of the inside termination location for each school and the distance from the building cable entrance?

For vendor to note during walk-through.

3. Will there be a walk-through?

Mandatory Walk Through on Thursday, April 20, 2017 at 10:00am.
